The ITOA Self Aid-Buddy Aid Course is an opportunity for Officers to learn the life saving skills necessary to make sure you go home at the end of your shift.

This course will combine lecture with hands-on skills training to give you the knowledge and capabilities to save your own life or that of your partner.

Who should attend? Every officer who wants to expand their survival skills – Patrol, SRO, Bike, Tactical. While tactical teams typically have medics most other officers are out there alone and some injuries that may be received during a lethal force encounter will not wait for EMS to arrive to help you. You have to prepare yourself to save your own life if necessary.

Registration fees are \$10 for current 2010 ITOA members and \$50 for non-members- \$50.00 payment includes 2010 membership. All participants should **be "on-duty."**
