

Public Safety Academy of NE Indiana Presents

Inside the Mind of a Suicide Bomber

A 3-Day Training Course • January 9, 10, 11 2012 • Fort Wayne, IN

This unique program of complex subject matter familiarizes attendees with terrorist recruitment, the behavioral profile of a suicide bomber, terrorist organizations modus operandi target selection, reconnaissance, planning and execution, counter measures. It instructs the participant in how to plan, recognize and deal with an incident and incident management.

Lead Instructor:

Israeli Special Agent (Ret.) Samuel Bashan. A former Director of the Bomb Security Branch (Israel Secret Service), he served in the IDF and Secret Service for more than 20 years and was a member of the GSS's VIP protection unit-serving as Senior Officer for Israeli Prime Ministers Security Detail. He is an expert in bomb security and preventative sabotage and preventative counter-measures. Mr. Bashan has trained thousands of Israeli security officers and has devised security measures still in use at the Israel International Airport.

This is a rare opportunity to learn from Mr. Bashan, a world renowned expert who has trained thousands of military and intelligence officials as well as first responders.

As an EOD community member for 15 years I thought I had heard it all, but on a training mission to Israel I took part in a class by Samuel Bashan and he gave me a new realization of exactly where we are with terrorism and what possibilities exist. He is one of the best speakers on this subject and I know I will not miss this class. This is a must for anyone serious about protecting assets, first responders and security personnel.”
Sgt. Greg Stier, FWP, Hazardous Devices Unit Commander
